The data regarding loss of property in these riots has not yet become available. (*See* below)

(c) Material support in terms of paramilitary forces and equipment is provided to the State Governments as and when occasion arises or demands are made to enable them to effectively manage and control the riot situation on ground.

With a view to finding ways and means of combating the evils of communalism, the National Integration Council has been deliberating to find a solution to this vexed problem. The Council held two meetings during 1990—one in April in New Delhi and the other in September in Madras. At these meetings, resolutions were passed to the effect that the problems have to be solved in a peaceful manner, an amicable solution is to be found to the Ram Janambhoomi-Babri Masjid issue and that nothing should be done to aggravate the communal tension which already existed in the country.

With a view to promoting the twin concepts of communal harmony and national integration, a scheme is presently operative in the Ministry of Home Affairs under which financial assistance is granted to the voluntary organisations for holding functions and seminars for this purpose in various parts of the country.

Keeping in mind the need to foster communal harmony and prevent the occurrence of communal riots in the Country, guidelines were issued to States|UTs in April, 1990 detailing measures in this behalf. A set of suggestions have also been sent to States|UTs in August, 1990, above the curbing of inflammatory speeches, writing etc. which tend to vitiate the communal atmosphere in the country.

The Ministry of Home Affairs is also monitoring some aspects of the 15-point programme for minorities welfare. These include setting up of Specal Courts, relief to riot victims, recruitment of minorties in police etc.
